This ever popular Rainier beer is becoming a household word and "will you have a glass of Seattle" is more often heard than anything else. The Criterion Saloon have the beer on tap or in bottles.

**PRESIDENT AND THE CABLE**

Washington, Oct. 2.—President McKinley has determined to urge again upon Congress the authorization of a trans-Pacific cable, and will be able to announce that a naval survey shows that the route selected is practicable. Surveys are being made by the collier Nero, under the command of Lieutenant Commander Hodges. Because of the complete soundings taken in former years between San Francisco and Hawaii, there is no necessity for further work there, and Lieutenant Commander Hodges has confined himself to the waters west of Hawaii. Reports received by Rear Admiral R. B. Bradford, chief of the Bureau of Equipments show that the Nero first proceeded directly to the Midway Islands, sounding on the way, zigzagged across the line to determine the best points to locate the proposed cable. From Midway Islands the Nero went to Guam. From Guam the Nero steamed north to Manila, then returned to Guam, and latter went to Yokohama, where she is now, preparing for the return voyage. She will zigzag across the imaginary line drawn during the voyage from Guam to Yokohama, make further soundings from Guam to the Midway Islands and again to Honolulu.

No adverse reports have been received concerning the route from Guam to Yokohama, and the authorities are confident that no obstacles exist that can prevent the laying of a cable from San Francisco to Manila, touching everywhere on American soil. The idea of running a branch line from Guam to Yokohama arises from the wishes of the administration to make the cable a commercial success, though it is desired primarily for Government use. The President appreciates that Congress may decide it impolitic to have the cable constructed and maintained at the expense of the United States, and should a private company be allowed to take up the enterprise, the Yokohama line would be an important consideration.

The work of laying a cable among the Philippine islands has been delayed by the mishap to the cable ship Hooker. The vessel will be temporarily repaired at Cavite and then sent to Hongkong, where she will rapidly be put in commission, as the military authorities desire the prompt establishment of the line.

**STEAMERS FROM THE SOUND**

Tacoma, Wash., Oct. 1.—The Waterhouse Steamship Company is calling for bids for the construction of two 2000-ton steam schooners for the British-American line plying between the Sound and Honolulu. Contracts will be let during the fall.

In addition the company has chartered the British steamer Bloemfontein to take the place of the Port Albert, formerly on the Tacoma-Honolulu run, but now in the service of the United States Government as a transport.

The new vessels will be fine ships, especially designed for trade between this coast and the Hawaiian Islands. They will be built of wood and steel, with modern engines and a speed of 10½ knots. They will have passenger accommodations. Manager Waterhouse believes that steamers can be built on the Sound to better advantage than anywhere else, although the bidding will be open to all the ship building concerns on the Coast. The vessels will cost about \$100,000 each.

**Custom-House Receipts.**

Port Collector Jackson reports the customs receipts at this port for the month of September at \$529,286.33. The month was a short one, there being two holidays in it—S. F., Oct. 4.

For the past two years King Bros have been doing portrait enlarging and copying in crayon and water color, during which time they have filled over two thousand orders. If you have anything in this line to be done, you are invited to call or send your card. When doing business with this firm, remember they are of old standing and thoroughly reliable.
